

**AGR 6933 Graduate Agronomy Seminar
Fall 2008 Schedule
Thursday, 4:05 pm
G186 McCarty A**

09/04/08	Dr. Greg MacDonald	Peanut CRSP in the Rupununi Region of Guyana
09/11/08	Travel Course Students	The 2008 Travel Course Experience
09/18/08	Jose Michelangeli	Defoliation Management of Tifton-85 Bermudagrass Used As Greenchop in North Florida Dairies,
	and	
	Olubunmi Aina	Tissue Culture of Wild <i>Arachis</i> Species
	and	
	James Boyer	The Influence of Postemergent Herbicide Application Timing on Peanut Injury and Yield
09/25/08	Dr. Robert Gilbert	Pura Vida: Sugarcane Collaboration Between University of Florida and EARTH University
10/02/08	JingJing Wang	Cogongrass (<i>Imperata cylindrica</i>) Competitiveness and Possible Rhizome Dormancy Study
10/16/08	Dr. Fredy Altpeter	Transgenic Bahiagrass – Generation, Evaluation and Risk Assessment
10/23/08	Tiberio Saraiva	Rumen Degradable Protein Supplementation Effects on Forage Characteristics and Performance of Early Weaned Calves Grazing Cool and Warm Season Pastures
10/30/08	Brian Schwartz	Zoysiagrass Evaluation for DNA Content, Estimates of Heritability for Turfgrass Performance Traits, Sting Nematode Response, and Nitrogen Management
11/06/08	Sunil Joshi	Molecular Improvement for Fall Armyworm Resistance in Tifton-85, TifEagle and Sugarcane
11/13/08	Barton Wilder	Smutgrass: Control and Biology
11/20/08	Ananta Acharya	Quantitative Genetic Basis of Inheritance of Root Knot Nematode Resistance in White Clover
12/04/08	Uduak Inyang	Management of <i>Brachiaria</i> Cultivar Mulato in South Florida
