

MARCELO OSÓRIO WALLAU

*Assistant Professor, Forages Extension Specialist
Agronomy Department - University of Florida*

2083 McCarthy Hall B, Gainesville, FL, 32611

PO box: 110500

E-mail: mwallau@ufl.edu

Mobile: +1-352-260-2254

Phone: +1-352-273-2216

OVERVIEW

EDUCATION

Ph.D. Animal Science, Grassland Ecology and Management

Universidade Federal do Rio Grande do Sul (UFGRS),

Porto Alegre, Brazil (GPA 3.9).

2014 - 2017

With period at the University of California, Davis, USA.

2015 - 2016

And at the INRA, France.

2017

M.S. Agronomy, Forage Production and Management,

University of Florida, USA (GPA 3.72).

2011 - 2013

Minor in Animal Sciences, focus on ruminant nutrition.

Agronomy, Eng.

Universidade Federal do Rio Grande do Sul (UFGRS), Porto Alegre, Brazil.

2006 - 2011

With period at Texas Tech University, USA. (GPA 3.72).

2009 - 2010

ACADEMIC APPOINTMENT

Twelve-month appointment, with 70% Extension and 30% Research responsibilities.

Date of initial appointment: 5 January 2018

PROFESSIONAL SPECIALTY

Pasture management, forage production systems, integrated crop-livestock system, forages for beef cattle, dairy cattle, small ruminants and horses, foraging behavior, modeling.

EXPERIENCE

UNIVERSITY OF FLORIDA

Assistant Professor – Forages Extension Specialist

Gainesville, FL, USA

January 2018 – current

As state forage extension specialist, my appointment includes 70% extension (Florida Cooperative Extension Service) and 30% research (Florida Agricultural Experiment Station), in the Agronomy Department, Institute of Food and Agricultural Sciences, University of Florida. I am responsible for development of human resources (agent and student training in Extension), producing and delivering extension material for producers, extension agents and general public, in cooperation with other statewide specialists and county faculty. As an extension specialist, I also coordinate statewide efforts on forage extension, and make the connecting point between multiple regions and various specialists working in forage-livestock production systems. To reach all major forage-dependent industries in Florida, my extension and research programs focus on increasing diversity as a tool to improve sustainability and resilience of agricultural systems.

UNIVERSITY OF FLORIDA

Post-doctoral fellow – Dr. Esteban Rios

Gainesville, FL, USA

August 2017 – December 2017

As short-term visiting scholar at the University of Florida, I worked in Dr. Rios' lab developing the outreach strategies and extension material for UF released cultivars, recommended cool-season varieties for the state of Florida and attended several extension activities, giving presentations to extension agents and farmers on forage management.

UNIVERSIDADE FEDERAL DO RIO GRANDE DO SUL

Doctoral fellow – Dr. Paulo Cesar de Faccio Carvalho

Porto Alegre, RS, Brazil

April 2014 – May 2017

My research objective was to explore the dynamics of herbage production and utilization (through modelling), and the effects of management and environmental conditions on primary and secondary production levels in multi-specific grassland in the Campos region, in southern Brazil. I was responsible for a long-term grazing experiment on native grassland, started in 1986, which was the basis for my research project. Besides the maintenance of the experiment, including its 130 animals, I also helped teaching undergraduate courses in forage and cattle (beef and dairy) production and management. Within our research group, I was responsible for some administrative tasks, helping with the orientation of Master and undergraduate intern students, and on writing and organizing a commemorative, extension-oriented book about our long-term grazing experiment.

INSTITUTE NATIONAL DE LA RECHERCHE AGRONOMIQUE

Visiting scientist – Dr. Juliette Bloor and Raphaël Martin

Clermont-Ferrand, France

March 2017

I spent one month working at the National Institute of Agricultural Research of France to develop the computational segment of my PhD project. I was under the supervision of Dr. Juliette Bloor and in cooperation with Raphaël Martin. During this period in France, we worked in developing a Java interface for the simulation model.

UNIVERSITY OF CALIFORNIA, DAVIS

Visiting scholar – Dr. Emilio Andrés Laca

Davis, CA, USA

August 2015 – June 2016

During the time spent at the University of California, Davis, I improved my skills on statistics and learned the basics of modelling and simulation. I was able to work very closely with Dr. Laca and developed the model that is the basis for the simulations in my research project.

UNIVERSITY OF FLORIDA

Research Assistant – Dr. Lynn E. Sollenberger

Gainesville, FL, USA

August 2011 – December 2013

During my Master's program, I developed abilities in designing and conducting field research with emphasis on grazing small plot experiments, data analysis, and laboratory methods of forage nutritive

value evaluation. As part of my appointment, I helped other students with projects related to forage management systems in the Southeast, and assisted teaching two forage courses (forage science and range management) and one crop production course (applied field crop production). Moreover, I participated in a multidisciplinary research project evaluating use of remote sensing and vegetation indexes (VI) to analyze changes in vegetation patterns in the Campos region in South Brazil and Uruguay. My involvement was on linking VI information to vegetation and soils characteristics in the different regions in this area. Also, I gained experience in organizing and presenting research at extension events and scientific meetings, improving my communication skills. As secretary of the Agronomy Department Social Committee and Agronomy Graduate Student Association I helped organizing and promoting social and development activities.

TEXAS TECH UNIVERSITY

Volunteer Internship, Forage Research Lab – Dr. Vivien G. Allen

Lubbock, TX, USA

August 2009 - May 2010

I worked in an integrated crop livestock system experiment, with focus on input reduction and water conservation. I received training with forage and soil sampling techniques and experimental animal handling, and laboratory procedures for fiber evaluation (NDF and ADF).

UNIVERSIDADE FEDERAL DO RIO GRANDE DO SUL

Research Assistant, Soil Microbiology Lab – Dr. Enilson de Sá

Porto Alegre, RS, Brazil

September 2007 –June 2009

I worked in field, greenhouse and laboratory experiments evaluating birdsfoot trefoil and alfalfa rhizobia strains for efficiency in N fixation. Some of the duties I was responsible for bacteria isolation, replication and inoculant production in the laboratory, and conduction field and greenhouse trials.

OTHER PROFESSIONAL DEVELOPMENT ACTIVITIES

NORTHLANDS, FARMFAIR INTERNATIONAL (FFI)

FFI Ambassador

Edmonton, AB, Canada

October 2014- November 2017

My work is oriented on assisting with the international extension of the top Canadian beef focused livestock show. I promote the program within the Brazilian and surrounding markets to recruit beef producers for the Inbound Buyer Program. While attending the show with the producers I act as interpreter (both Spanish and Portuguese) and logistical support for the delegates. This project has enabled me to build my skill sets and connect with the Canadian agriculture industry.

PAMPA FERAL HOGS GROUP

Founding Member

Santana do Livramento, RS, Brazil

January 2014- current

Founding member of the Javali no Pampa (Feral Hogs in the Pampas) Organization, a volunteer group established in 2014, to cover an extension gap on the subject, and collect biological material for research. The group is engaged on testing and applying feral hog control techniques, developing scientific and extension material about feral hog control and biology, supporting research groups with biological material, and consulting with farmers and ranchers in Southern Brazil on feral hog management. On the political level, we have been involved with supplying information for policy makers (both at state and federal level) and helping out in the development of proposals for feral hog control plans in Brazil. We recently published a book on feral hog biology and management, and are developing technical series, radio bulletins and promoting meetings and talks with producers. We are currently developing partnerships with Texas A&M AgriLife Extension, in a work coordinated by Dr. Jim Cathey. The group is supported by the Farmers Association of Santana do Livramento and neighboring counties, in Rio Grande do Sul, Brazil. Our work is available at www.javalinopampa.info.

SARANDI AND FARRAPO FARMS

Consultant and Assistant Manager

Santana do Livramento, RS, Brazil

Aug. 2010- Aug. 2011, Jan. 2014- Aug. 2015

My role in our family operations is as an agricultural and livestock consultant, mainly focusing on pasture and nutrition. I am responsible for the forage planning and herd management in a 7000 acre beef and dairy cattle, horse and sheep farm. Working at the ranch helped me developing skills in nutrition and reproduction management of dairy cattle, and improved my leadership and organizational ability. I had 12 employees under supervision in three different segments on the farm. I was also partly responsible for financial management and cattle trading, and had good experience with machinery and implement setting and handling.

TOCA DA ONÇA FARM

Volunteer internship, crop production and farm management

Toledo, PR, Brazil

January – February 2009

I received training on corn and soybean production, fertilization and pest control, planting and harvesting planning, storage and commercialization of commodities. I also worked on beef cattle management and forage planning, and had experience with business administration and crew management, as well as Excel programing.

OTHER VOLUNTEER INTERNSHIPS

INSTRUCTION

GUEST LECTURER AND TEACHING ASSISTANT

- PLS3004C – Principles of Plant Science (1 credit hour, 4 semesters taught, 2018 -2021; enrolment 20-60), UF. Guest Lecturer
 - AGR5266C – Field plot Techniques (3 credit hours, 4 semesters taught, 2018 -2021; enrolment 15-25), UF. Guest Lecturer
 - AGR6233 – Tropical Grasslands Agroecosystems (3 credit hour, 1 semesters assisted, 2019; enrolment 20), UF. Panelist
 - Suinocultura – Ecologia e manejo do javali (Feral hog ecology and management)(4 credit hours, 26 Jun 2017) Unipampa, Dom Pedrito. Guest lecturer.
 - AGR05008 – Diagnosis and planning of forage systems (20 credit hours, Spring 2014), UFRGS. Teaching assistant.
 - AGR05503 – Forages, Veterinary Medicine (4 credit hours, Spring 2014, Fall 2015), UFRGS. Guest lecturer.
 - AGR05014 – Ecophysiology for Pasture Management, Animal Science (5 credit hours, Spring 2014), UFRGS. Guest lecturer.
 - AGR01008 – Ruminant Production, Agronomy (2 credit hours; Fall 2014), UFRGS. Guest lecturer.
 - AGR 1127 – Dairy Cattle Production and Management, Veterinary Medicine (4 credit hours, Fall 2014; Spring 2016), UFRGS. Guest lecturer.
 - AGR 4214C – Applied Field Crop Production, Agronomy (4 credit hours, Fall 2013), UF. Teaching assistant, responsible for lab preparation and teaching.
 - AGR 4231 – Forage Sciences and Range Management, Agronomy (10 credit hours, Spring 2012 and 2013), UF. Teaching assistant, responsible for lab preparation and selected teaching.

TEACHING

- AGR 6932 – Developing extension skills: special topic class on developing and delivering extension material (2-3 credits, offered based on demand; total 4 students)
 - AGR 6913 – Supervised extension: special topic class on developing and delivering extension material (2-3 credits, offered based on demand; total 5 students)

STUDENT ADVISING

GRADUATE ADVISOR

- Caitlin Bainum – M.S. Non-thesis. Agronomy, concentration in Agroecology. Project topic: Curriculum development for pasture schools in Florida. Completion Summer 2020.
- Alicia Hallbitter – M.S. Non-thesis, Agronomy, concentration in Agroecology. Non-thesis. Project topic: Assessment of onboarding needs for Priority 1 Extension agents in Florida. Completion Fall 2020.
- Hannah Wooten – M.S. Non-thesis, Agronomy, concentration in Agroecology. Non-thesis. Project topic: A train-the-trainer curriculum for hydroponics. Completion Summer 2021.
- Kacey Aukema – M.S. Agronomy. Thesis: soil CO₂ efflux and carbon balance of an integrated crop-livestock system in the northern great plains. Completion Spring 2021.
- Haley Hayes – M.S. Agronomy. Thesis: Canopy Characteristics, Productivity, Nutritive Value, and Persistence of Tetraploid Bahiagrass Breeders' Lines Under Different Grazing Management Strategies. Completion Summer 2022.
- Kayla Gonzales - – M.S. Non-thesis, Agronomy, concentration in Agroecology. Non-thesis. Project topic: strategies for growing replacement heifers in Florida. Current.
- Rachel Balster – M.S. Agronomy. Thesis: Solar Synergies – strategies to merge energy and agricultural production in the Sunshine State. Current.
- Alejandro Ruden – Ph.D. Agronomy. Dissertation topic: Evaluation of integrated crop-livestock systems in Florida. Current.
- Celeste Martinez – M.S. Agronomy. Thesis: Establishment and evaluation of bermudagrass varieties. Current

OTHER STUDENT ADVISING

- Served as committee member in for 10 M.S. and Ph.D Students (6 current)
- Served as jury member for 11 project of thesis/dissertation defenses, and qualification examinations
- Mentored 5 international visiting students
- Mentored 11 undergraduate students

POPULAR PRESS – 38 TOTAL

AWARDS AND HONORS

NATIONAL

2023 American Forage and Grassland Council (AFGC) Merit Award

STATE

2021 Florida Association of County Agricultural Agents (FACAA) Extension Specialist of the year.

2019 Dallas Townsend Extension Award by UF/IFAS for participation on Brunswickgrass project (\$2000 personal and \$1000 program funds)

ADDITIONAL CREDENTIALS

LANGUAGES

- English (IELTS proficiency): read, speak and write well.
- Spanish: read, speak and write well.
- French: read and speak reasonably.
- Portuguese (mother language).

LICENSES

- Bovine Artificial Insemination, Fundação Bradesco, Rosário do Sul, Brazil.

PROFESSIONAL MEMBERSHIPS

- Florida Cattlemen's Association – 2017 – present
- American Society of Agronomy, 2009 – Present.
- Crop Science Society of America, 2009 – Present.
- Soil Sciences Society of America, 2009 – Present.
- British Grassland Society, 2009 – Present.
- American Society of Animal Science, 2009 – 2011
- American Dairy Science Association, 2009 – 2011.

OTHER ACHIEVEMENTS AND INVOLVEMENTS

- EMBRAPA (Brazilian Agricultural Research Corporation) recognition and acknowledgment for wildlife management and research support, 2016.
- IBAMA (Brazilian Institute for Environmental Protection and Natural Resources) recognition for wildlife management, Hog Control Program, 2015.
- Santana do Livramento City Council (RS, Brazil) recognition for wildlife management, Hog Control Program, 2015.
- Best thesis of the Agronomy Department – University of Florida, 2014.
- 2nd place C-6 Forage and Grazing Lands: Robert F. Barns Graduate Student Oral Presentation Competition, CSSA Meeting, Tampa, FL, 2013.
- UF Agronomy Graduate Student Organization – secretary (2012-2013).
- UF Agronomy Department Social Committee – secretary (2011-2013).
- TTU Polo Club – member (2009-2010).
- TTU Agronomy Club – member (2009-2010).
- High School Student Association – president (2002-2003).

COMPLEMENTARY ACTIVITIES

- Basic farm accounting and tax management, Farrapo Acessoria Contábil, Brazil.
- English for Business, London Chamber of Commerce and Industry, LCCI, England.
- PET – ESOL Examinations, University of Cambridge, Cambridge, England.
- Basic Stock Market Notions, XP Educação, XP, Brazil.
- Beef cattle health management, Serviço Nacional de Aprendizagem Rural (National Service for Rural Learning) – RS, SENAR RS, Brazil.
- Short-course: cover crops and nutrient recycle in soil, FertBio Soil Science Congress, Brazil.

SERVICES

UF DEPARTMENT OF AGRONOMY

- UF/IFAS Plant Sciences Research and Education Unit, Citra, Advisory Council, 2018 - 2021

- Search Committee - Assistant Extension Scientist position (00014409), 2018.
- Agronomy Department Social Committee, 2018 – 2021.
